Children's Hospital at the Mary J. Drexel Home.

Mondays, Wednesdays and Saturdays from 2 to 3 P.M.

DR. MARIE L. BAUER, Mary J. Drexel Home.

# 40. Jahresbericht

des

## Verwaltungsrats des Deutschen Hospitals

der

### Stadt Philadelphia.

---

Die Trustees des Deutschen Hospitals theilten in dem Jahresbericht des Jahres 1898 ihren Freunden mit, daß in allen Departements des Hospitals eine bedeutendere Zunahme der Thätigkeit zu verzeichnen war, als in früheren Jahren. Diese erhöhte Thätigkeit war ohne Zweifel dem Kriege mit Spanien zuzuschreiben, während dessen die Behörden des Deutschen Hospitals den Vereinigten Staaten ihre gesammten Einrichtungen und andere Akkommodationen zur Verfügung stellten.

Diese allgemeine Zunahme in der Thätigkeit des Hospitals hat nicht nachgelassen. Wir können abermals *F o r t s c h r i t t* berichten, und zwar ganz besonders im chirurgischen Departement. Wir würden denen nicht Gerechtigkeit widerfahren lassen, welche so wirksam zum Erzielen solcher Resultate beigetragen haben, wenn wir auf die gethane Arbeit im Detail eingehen wollten. Wir überlassen deshalb lieber weitere Erklärungen dem Medizinischen Kollegium.

Da das Hospital lange Zeit und zwar anhaltend mit Patienten überfüllt war, so hat sich die Verwaltung veranlaßt gesehen, eine vollständige Desinfizierung des ganzen Gebäudes vornehmen zu lassen, denn die meisten Krankheitsfälle des Jahres 1898 waren Typhusfälle von der Art, welche als ansteckend erachtet werden. In allen Räumlichkeiten des Hospitals sind Fußböden und Wände gründlich gereinigt und angestrichen worden. Unsere Pflichterfüllung unsern Mitbürgern gegenüber war mit großen Unkosten verbunden, die nicht durch einzelne Beisteuern oder den Ertrag des jährlichen Gabentages gedeckt werden konnten, denn selbst unser eigener Staat Pennsylvanien beschneidet unsere bescheidene Vermilligung unter dem Vorwande der Geldknappheit. Wir hoffen auf bessere Hilfe während der nächsten Zukunft.

Der Mißbrauch der Dispensaries dauert nicht nur fort, sondern ist eher noch im Zunehmen begriffen, und mit der Unverschämtheit und

FORTIETH ANNUAL REPORT  
OF THE  
TRUSTEES OF THE GERMAN HOSPITAL  
OF THE  
CITY OF PHILADELPHIA.

---

THE Trustees of the German Hospital informed their friends in the annual report for the year 1898, that there had been a considerable *increase of activity* in all branches of the Hospital, in comparison with former years, this was no doubt due to the war with Spain, when the German Hospital authorities offered their entire equipments and other accommodations to the United States.

That increase has not diminished, we can again report *progress*, and especially was this the case in the surgical department. It would not be doing justice to those who contributed so effectfully to bring about these results; to detail the work done we prefer to leave further explanation to the Medical Board.

The crowded state of the Hospital for a long and continuous period, has subjected the administration to a complete disinfection of the entire building, for the majority of the cases in the year 1898 were of the typhus fever type, which is considered contagious. The entire Hospital has now undergone a complete scouring and painting of floors as well as walls. Very considerable *expense* was incurred in performing our duty towards our fellow-citizens, but it could not be covered by sundry contributions, nor by the annual Donation Day, for even our own State reduced our modest allowance on the plea of inability. We hope for better assistance in the near future.

The *abuses* in the Dispensaries continue, and are not only on the increase but also combined with insolence and arrogance of some of the applicants for help, who imagine that the city authorities furnish the means to support free dispensaries.

Anmaßung einiger Applikanten verbunden, welche sich einbilden, daß die Stadt die Mittel zur Unterhaltung der freien Dispensaries liefert.

Unser h y d r o p a t h i s c h e s Etablissement erfreut sich wachsender Beliebtheit und es werden demselben immer mehr Besuche abgestattet.

Das Maschinenhaus hat zur großen Annehmlichkeit des Ingenieurs und seiner Gehilfen einen weiteren Ventilator erhalten. Um unbesorgene Eindringlinge fernzuhalten, ist zwischen Mary J. Drexel Home und dem Deutschen Hospitale ein P f ö r t n e r h a u s errichtet worden.

Das Gewächshaus mußte vollständig umgebaut werden, ebenso die Zimmermannswerkstätte, da beide sehr notwendige Bestandteile der im kräftigen Wachstum begriffenen Anstalt sind.

Mit großer Genugthuung können wir berichten, daß von Charles Smith zum Andenken an seine Gattin Katharine Jüngerich Smith ein Freibett gestiftet worden ist.

Der Pennsylvania Eisenbahn-Gesellschaft gebührt unser Dank für den Rabatt, den sie beim Transport aller für das Deutsche Hospital bestimmten Kohlenladungen erlaubt, auch danken wir allen gütigen Freunden vielmals, welche so getreulich zu der erfolgreichen Führung des Deutschen Hospitals beigetragen haben.

Am Schlusse des 40. Jahresberichtes des Deutschen Hospitals ersuchen wir die freundlichen Leser, die verschiedenen Berichte, welche genaue Auskunft über alle Departements geben, eingehend zu prüfen.

Im Auftrag des Verwaltungsrates

**John D. Lanfau,**  
Präsident.

Philadelphia, den 31. Dezember 1899.

Our *hydropathic* establishment enjoys increased favor, and visits to it become more numerous.

The *dynamo* room has received an additional ventilator, to the great comfort of the engineer and his assistants, and a lodge has been constructed to make the grounds more private.

The greenhouse had to be entirely reconstructed as well as the carpenter shop, for both are very necessary accessories to this very growing establishment.

It gives us great satisfaction to report the founding of one free bed by Charles Smith, in memory of his wife Catharine Iüngerich Smith.

Many *thanks* are due to the managers of the Pennsylvania Railroad Company for allowing rebate on freight for all the coal used for the German Hospital, and many *thanks* to all those kind friends who contributed so faithfully to the successful management of the German Hospital.

In closing the fortieth report of the German Hospital we beg the kind reader to examine the different reports, which will prove very interesting and instructive.

By order of the Board of Trustees,

J. D. LANKENAU, *President*.

Philadelphia, December 31, 1899.

## ANNUAL REPORT OF THE

## RECEIPTS.

# Jahres-Bericht des Frauen-Hilfs-Vereins

des

## Deutschen Hospitals.

Vom 1. Januar 1899 bis 31. Dezember 1899.

### An den Verwaltungsrat des Deutschen Hospitals:

In der Jahres-Versammlung vom 3. Januar 1899 wurden folgende Frauen in den Vorstand erwählt:

#### Präsidentin:

Frau Chas. Newmann.

#### 1. Vice-Präsidentin:

Frau C. Kaiser.

#### 2. Vice-Präsidentin:

Frau G. Nier.

#### Schatzmeisterin:

Frau John Braun.

#### Finanz-Sekretärin:

Frau F. Scherer.

#### Protokollirende Sekretärin:

Frau K. Pahl.

#### Correspondirende Sekretärin:

Frau F. Körmann.

#### Board of Trustees:

Frau W. Regenspurger,

Frau M. Dittmann.

Frau H. Wittmann.

#### Vorstands-Mitglieder:

Frau M. Bauer,  
" C. Bergdoll,  
" M. Newmann,  
" M. Kahl,  
" J. Dönges,  
" M. Tarlo,  
" M. Brecht,

Frau C. Urban.  
" M. Schönhut,  
" C. Streich,  
" C. Horsch,  
" M. Weiß,  
" J. Schönherr,  
" Th. Holly.

#### Ehrenmitglieder:

John D. Lanfau, Frau John Bauer (Ehren-Präsidentin), Chas. Newmann, † Wanda v. Derken, † Juliette Stephan, Mathilde Thudium, Katharine Wilhelm, Louisa Alter, † Marie Eßlinger, Amalie Regenspurger, Charlotte Maisch.

#### Lebenslängliche Mitglieder:

Die Frauen: Gustav Alber, Charles Barth, August Wein, Frank Berg, Emma Bergdoll, Anna L. Braun, Wm. Burk, Herman Dercum, Wm. F. Dreer, Fred. Feil, Auguste Foerderer, Felix Geiger, Caroline Hammer, Aaron H. Harley, Charles Hanschild, Henry D. Justi, Conradine Kaiser, Frederick Koch, John Kolb, M. F. Leibhauser, Chas. M. Miller, Raymond M. Raff, Wm. Regenspurger, C. G. Rehenhaller, Chas. Rippmann, Geo. Rominger, Herrman Rose, Chas. F. Rump und Tochter Amalie, Hermann Rump, Christian Sautter, Chas. Schaal, William Schaal, Peter Schemm, Frank Scherer, † Friederike Schill, Chris. Schmidt, John Schoenherr, G. A. Schwarz, Horace C. Smith, William H. Staake, Mary Stang, Jos. Straubmiller, † Bertha Thon, John G. Vogler, Albert Weihenmayer, Julie Weihenmayer, Wm. Welker, Chas. F. Woerwag.

(Anzahl der lebenslänglichen Mitglieder 50.)

# Bericht des Medizinischen Kollegiums

Für das Jahr 1899.

An den Verwaltungsrat des Deutschen Hospitals.

Geehrte Herren!

Das medizinische Kollegium hat die Ehre, Ihnen den folgenden jährlichen Bericht zu erstatten:

Im Jahre 1899 wurden in das Deutsche Hospital, einschließlich des Kinderhospitals des Mary J. Drexel Heims 3631 Patienten aufgenommen. Vom Jahre 1898 verblieben 219 Patienten, was eine Gesamtzahl von 3850 Patienten ergibt. Diese verteilen sich folgendermaßen:

|  |       |
|--|-------|
| Medizinische Fälle.....  | 1,229 |
| Chirurgische Fälle (einschließlich Augen-, Ohren-, Nasen- und Hals-Fälle)..... | 1,581 |
| Marine Fälle.....  | 389   |
| Kinder.....  | 431   |
| <hr/>  |       |
| was die oben erwähnte Gesamtzahl von.....                                      | 3,631 |
| Fällen ergibt.   |       |

252 Patienten starben.

Die Kliniken wurden von 45,477 Patienten besucht, welche sich auf die einzelnen Abteilungen verteilen wie folgt:

|                                     |        |
|-------------------------------------|--------|
| Medizinische Klinik.....            | 6,084  |
| Chirurgische Klinik.....            | 21,274 |
| Klinik für Frauenkrankheiten.....   | 1,044  |
| Augen-Klinik.....                   | 6,077  |
| Hals-, Nasen- und Ohren-Klinik..... | 5,201  |
| Klinik für Kinderkrankheiten.....   | 5,797  |
| <hr/>                               |        |
| macht die Zahl der Besucher.....    | 45,477 |

Eine umfangreiche Arbeit wurde bewältigt in den Operationssälen, was die große Zahl von 1099 Operationen bezeugt.

Die ziemlich bedeutende Typhus-Epidemie des verflossenen Frühjahrs verursachte ein das gewöhnliche Maß weit übersteigendes Anwachsen von Fällen dieser Art und dementsprechende Vermehrung der Arbeit für die Schwestern und Hausärzte. Es wurde bei diesen Kranken die Wasserbehandlung fortgesetzt, welche in der Anwendung von kalten Bädern besteht, sobald das Fieber des Patienten einen gewissen Grad erreicht hat. Die

# REPORT OF THE MEDICAL BOARD

For the Year 1899.

*To the Board of Trustees of the German Hospital.*

GENTLEMEN:—The Medical Board has the honor to submit the following as their report :

During the year 1899 there were admitted to the Hospital, including the Children's Hospital of the Mary J. Drexel Home, 3,631 patients.

In addition to the new admissions, 219 patients remained over from the previous year, making a total 3,850 of cases treated. There were in the

| Surgical Department, including Eye, Ear, Nose and Throat... | 1,581 |
| Marine Hospital Service.....                                | 389   |
| Children's Hospital.....                                    | 432   |

---

Making a total of admissions..... 3,631

252 cases died.

The visits to the Dispensary or out-patient department numbered 45,477, divided as follows :

|                           |        |
|---------------------------|--------|
| Medical.....              | 6,084  |
| Surgical.....             | 21,274 |
| Gynæcological.....        | 1,044  |
| Eye.....                  | 6,077  |
| Throat, Nose and Ear..... | 5,201  |
| Children's Hospital.....  | 5,797  |

---

Total number of visits..... 45,477

Great activity prevailed in the operating rooms, the total number of operations performed having reached the large total of 1,099 cases.

During the spring of 1899 there was quite an extensive epidemic of typhoid fever, causing a large increase in the number of such cases usually treated here and entailing much extra labor on the Sisters and resident physicians. In the treatment of typhoid fever the so-called Brand plan of treatment has been continued, which consists of bathing the patients when their temperature reaches a certain height, in cool

Resultate dieser Behandlung sind so gut und die wohlthätige Einwirkung auf das Befinden des Kranken so bemerkenswert, daß es wünschenswert erscheint, diese Methode möge sich immer mehr einbürgern.

Zwecks größerer Sicherheit der Patienten im Falle eines Brandes wurde an Stelle der alten eine neue Feuerleiter errichtet, welche in ihren Dimensionen so groß und deren Stufen so breit sind, daß die Rettung von selbst vollständig hilflosen Patienten vergleichsweise sich als leicht herausstellen dürfte. Außerdem wurde das gesammte Hospital mit Feuerlöschapparaten ausgerüstet. Alles dieses, zusammen mit der Thatsache, daß kein Gas, sondern nur Electricität für Beleuchtungszwecke angewandt wird, reduziert die Feuersgefahr auf das denkbar geringste Maß.

Während des Sommers wurden wir sehr besorgt durch die Erkrankung des Herrn John D. Lanfau und sind in der That dankbar, daß seine Wiederherstellung eine vollständige zu sein scheint.

Die detaillierten Berichte der einzelnen Abteilungen des Hospitals zeigen, welch' bedeutende Arbeit in dieser Anstalt geleistet wurde.

Die mühsame Arbeit des Registrators Dr. A. D. Whiting hat ein sehr handliches Arrangement der Registratur ergeben, welches sich bei späteren Recherchen von großem Nutzen erweisen wird.

Das Pathologische Laboratorium, unter Dr. A. D. J. Kelly und zwei Hausärzten, hat ausgezeichnete und umfangreiche Dienste gethan, welche hervorragenden Anteil an der Vermehrung des guten Rufes des Hospitals haben und die weise Voraussicht des Verwaltungsrats in das rechte Licht setzen, welcher uns durch Errichtung eines so vollständig eingerichteten Pathologischen Laboratoriums die Mittel zu solch segensreicher Arbeit in die Hand gab.

Die Pharmazeutische Abteilung nahm ihren Anteil an dem allgemeinen Anwachsen der Arbeit.

Die Vorrichtungen für Herstellung von Mineralwasser wurden verbessert. 2476 Syphons Mineralwasser und 1654 Ein-Quart Flaschen kohlensaures Wasser wurden fertiggestellt. Das Hospital hat durch die Selbstanfertigung dieser künstlichen Wasser bedeutendes Geld gespart und war dabei in der Lage, die Patienten stets mit frischem Mineralwasser zu versehen.

Im X-Strahlen-Departement wurden viele ausgezeichnete Aufnahmen gemacht. Diese Bilder haben nicht nur ein rein wissenschaftliches Interesse, sondern sind auch von hervorragendem thatsächlichen Nutzen bei Behandlung der betreffenden Krankheitsfälle.

Das Institut für wissenschaftliche Wasserbehandlung wurde sehr stark in Anspruch genommen und sind die erzielten Resultate bedeutend.

Fälle, welche jeder anderen Behandlung widerstanden, wurden bedeutend gebessert, andere geheilt.

water. The results are so good and the comfort of the patients is so much increased by this method that it is to be hoped that this treatment will become more and more popular.

The safety of the patients against the danger of fire was still more enhanced by the construction of a most complete fire-escape. Its dimensions are so large and the stairs so wide, that removal of even helpless patients would be comparatively easy. Besides this the whole hospital was equipped with chemical fire extinguishers. All this, coupled with the fact that no gas, but electricity only, is used for lighting purposes, reduces the danger of fire to a minimum.

During the summer we were much alarmed by the grave illness of Mr. John D. Lankenau, and are indeed grateful that his restoration to health seems complete.

The detailed reports of the various departments of the Hospital show what an amount of work is being done in this institution.

The labors of the Registrar, Dr. A. D. Whiting, are very arduous and have resulted in a most systematic arrangement of the records for future references.

The Pathological Department, under Dr. A. O. J. Kelly and two resident physicians, has done most excellent and extensive work, which reflects great credit on the Hospital and on the forethought of the Board of Trustees in establishing so complete a pathological institute.

The Drug Department shared in the general increase of work in the Hospital. The plant for manufacturing mineral waters has been improved; 2,476 syphons of mineral water and 1,654 one-liter bottles of aerated water were manufactured. In consequence the Hospital has saved considerable money and the patients have had an ample supply of purest aerated waters.

In the X-ray Laboratory many excellent radiographs were taken by Mr. M. I. Wilbert. These pictures are not only of scientific interest but of the most pronounced practical utility.

The Department for Scientific Hydrotherapy has been kept very busy during the last year and the results obtained have been very gratifying. Some cases which resisted all other treatment have been much improved, others cured. We may mention cases of inveterate syphilis, severe hysteria, chlorosis and anæmia, rheumatism with its numerous subdivisions and complications, neurasthenia, uric-acid diathesis, gout and diabetes. The number of cases treated was 199, and these patients received 1,294 baths. This department, which occupies a suite of several large rooms in the hospital laundry building, is fitted up with the most modern apparatus for the application of water in all its vari-

Erwähnt werden möge hartnäckige Syphilis, schwere Hysterie, Bleichsucht und Blutarmut, Rheumatismus in seinen verschiedenen Formen und Komplikationen, Nervenkrankheiten, allgemeine Krankheitsanlagen, Gicht und Zuckerkrankheit. Behandelt wurden 199 Patienten, welche 1294 Bäder empfangen.

Diese Anstalt, welche eine Anzahl großer Räumlichkeiten im Waschanstaltgebäude umfaßt, ist ausgestattet mit den modernsten Apparaten für Anwendung von Wasser in seinen verschiedenen Formen und allen Graden von Wärme und Druck.

Dieses Hospital war das erste in Philadelphia, welches solch' hydrotherapeutische Anstalt errichtete und wurde von verschiedenen anderen Hospitälern nachgeahmt.

Es wäre wünschenswert, daß diese Einrichtung in medizinischen Kreisen und beim Publikum in ausgedehnterem Maße bekannt würde.

Die Hausärzte und die Schwestern hatten außergewöhnlich schwer zu arbeiten. Sie thaten ihre Pflicht in der ausgezeichnetsten Weise und wir ergreifen diese Gelegenheit, die Aufmerksamkeit des Verwaltungsrates hierauf zu lenken.

Des weiteren bitten wir, unseren ergebensten Dank aussprechen zu dürfen für das liebenswürdige Eingehen auf unsere Wünsche seitens des Verwaltungsrates und seines ausgezeichneten Präsidenten, des Herrn John D. Lanfau.

Hochachtungsvollst,

C. Frese, M.D.  
Sekretär.

Chas. S. Turnbull, M.D.  
Vorsitzender.

ous forms at all degrees of heat and pressure. This hospital was the first in Philadelphia to establish such a hydrotherapeutic department and has been imitated by several other hospitals, and deserves to be more widely known to the medical profession and the public.

The resident physicians and the Sisters had to work extremely hard. They performed their duty nobly, and we take this opportunity to especially draw the attention of the Board to their devoted service.

In conclusion we beg to render our sincere thanks for the courteous and liberal treatment accorded us by the Board of Trustees under the generous leadership of President John D. Lankenau.

Respectfully submitted,

CHAS. S. TURNBULL, M.D.,

*Chairman.*

C. FRESE, M.D.,

*Medical Superintendent and Secretary.*

## THE DRUG DEPARTMENT.

The quarters allotted to the Drug Department of the German Hospital consist of a suite of five rooms, situated in the northeast corner of the basement, in the new John D. Lankenau Extension.

They are divided into :

A dispensing room, where the numerous prescriptions for the hospital as well as for the Out-patient Department are compounded.

A laboratory, very completely fitted out with all the apparatus necessary for the manufacture of the various galenical preparations, as well as for testing chemicals and raw materials.

A store-room for pharmaceutical preparations and crude drugs; another used for the storage of glassware, ointments and heavy chemicals; and a separate room reserved for the production of mineral and distilled water, and antiseptic solutions used in the surgical departments of the hospital. This room also contains a new and very complete apparatus, for the manufacture of all kinds of aërated waters. The appliances necessary for bottling the highly charged waters are very practical, and have arrangements for safety so that no explosions can occur. The expenses for mineral waters were quite an item and are now much reduced. But more than that, the quality of the various medicinal mineral waters produced here is much superior to that obtained elsewhere.

The dispensary, laboratory, and store-rooms are fitted out with neat hardwood fixtures. They have been carefully planned, and in actual practice have proven to be admirably adapted to the work, the convenient arrangement of the stock materially aiding in the rapid dispensing of medicines.

The Laboratory occupies the centre of the suite of rooms, and it is here that the various pharmaceutical processes necessary in the production of tinctures, fluid extracts, pills, triturates, suppositories and other galenical preparations are carried on. This room is well fitted out with all the apparatus necessary for making the various preparations on a large scale.

Some years ago, following a suggestion of the Medical Superintendent of the German Hospital, the metric system of weights and measures was introduced, and since then has been used exclusively both in the making and dispensing of all medicinal preparations, thus avoid-

ing, to an extent at least, the anomalous condition of affairs existing in most drugstores, of buying supplies by one system of weights and measures, making their preparations by a second, and dispensing these by a third.

There has been a marked increase in the work done in this department.

For the Out-patient Department there were 14,272 prescriptions; 5,099, or more than 35 per cent. of the total, were furnished free, to indigent patients, while for the remaining 9,173 a nominal charge was made. The hospital proper was furnished with 37,862 parcels and the Children's Hospital with 1,399, making a total of 53,533 prescriptions and renewals furnished by this department for the year 1899.

In the Pharmaceutical Laboratory there were manufactured during the same period: 224,250 pills, 156,000 cc. liniments, 8,600 suppositories, 200,000 cc. syrups, 174,000 cc. tinctures, 140,000 cc. elixirs, 27,500 cc. fluid extracts, 312,500 gms. ointments, 113,000 cc. official mixtures, 320,000 cc. oil emulsions, 300,000 cc. official solutions, 83,000 gms. *sapo mollis*, 867,500 cc. hospital mixtures. There were also filled 2,476 syphons of mineral water and 1,654 one-liter bottles of aërated waters.

## THE PATHOLOGICAL INSTITUTE.

The new Pathological Institute, erected in 1897, through the munificence of Mr. John D. Lankenau, is an isolated building, situated about the centre of the hospital grounds. It is a three story brown stone building surmounted by a copper tile roof. It comprises:

- (1) The Laboratory of Clinical Pathology;
- (2) The Laboratory of Pathological Anatomy;
- (3) The Laboratory of Bacteriology;
- (4) The Museum.

The Laboratory of Clinical Pathology is situated on the second floor of the Institute and has been fitted up in a most substantial and practical manner. The apparatus, appliances, chemicals, etc., necessary for the thorough examination and scientific investigation of the urine, sputum, blood, and the various secretions and excretions, are very complete. During the past year the number of urine examinations aggregated 6,171. Many of these were the ordinary examination, such as is practised of the urine of all patients entering the hospital. About one-half of them, however, comprised, in addition to the usual chemical examination, a careful microscopical investigation, while not

a few of them consisted of very detailed and delicate examinations, such as the determination of the presence or absence of lead, various microorganisms, etc. The number of sputum examinations aggregated 340. The majority of these were for the determination of the presence or absence of the tubercle bacillus in suspected cases of tuberculosis. Others had for their object the detection of various crystals, shreds of tissue, pathological new-formations, other microorganisms, etc. The number of blood-examinations aggregated 602. Of these 364 were ordinary blood-examinations, which comprise the determination of the percentage of hemaglobin and the number of erythrocytes and leukocytes in a cubic millimeter of blood. Ninety-nine of them, in addition to the foregoing, included a differential count of the leukocytes. One hundred and nine were for the determination of the presence or absence of the hematozoon of malaria.

The Laboratory of Pathological Anatomy naturally includes the room for the study of gross morbid anatomy and that for the study of pathological histology. The former is situated on the first floor, the latter, on the second floor of the Institute. During the past year the number of necropsies performed was 66. The number of specimens removed by operation that were examined was 463. Microscopical specimens were made of all the diseased tissues and organs, and these carefully preserved, not alone in the interests of science, but also to facilitate their future study by those having the welfare of the sick and diseased at heart. In appropriate cases, bacteriological examinations were made of diseased organs removed at necropsy or operation.

The Laboratory of Bacteriology is situated on the second floor of the Institute. All the complicated apparatus requisite for the study and investigation of the various microorganisms that threaten human life is at hand. During the past year the number of cases examined bacteriologically was 756. This number does not adequately express the amount of work performed, as many examinations classed as a single one, because each refers to an individual case, necessitated twenty, thirty, or more examinations. Of the total examinations, 386 were for the Gruber-Widal reaction in suspected cases of enteric fever. The remainder included the bacteriological examination of pus, various exudates, secretions, excretions, water, air, suture materials, surgical dressings, the hands, gowns, and gloves of the surgeons, surgical assistants, nurses, etc.

The Museum is situated on the third floor of the Institute. During the past year it has been rendered more extensive and complete by the addition of a considerable number of highly interesting specimens.

Opportunity is thus afforded in the Institute for the macroscopic and microscopic study of disease.

The system of keeping the records of the Institute inaugurated in 1898, is still continued and has proved eminently satisfactory. Duplicate records are made of all examinations, with the single exception of the examinations of the urine. Of the latter, a single record only is generally made, and this is transmitted to the proper resident physician to be filed with the case history. Of the duplicate records made of all the other examinations, one is transmitted to the proper resident physician to be filed with the case history; the other is kept in the laboratory. The latter are properly numbered, arranged, and filed, and may be consulted with facility at any time. The microscopical preparations and museum specimens are also being indexed and catalogued. The completed indexes and the system of cross-references will thus insure the ready discovery of the record of any examination that may have been made in the Institute, as well as the preparations and specimens belonging to each case.

## THE LABORATORIES FOR PHOTOGRAPHY AND RADIOGRAPHY.

Very convenient quarters are fitted up for this purpose, on the sixth floor; they consist of a suite of three rooms at the head of the main stairway, convenient to the elevator, and are divided into:

A photographic room with northern exposure, thus insuring good, soft light without undesirable sunlight.

A radiographic operating room, with two induction coils, operated directly from the 110 volt circuit.

A large and commodious developing room, also used as a store-room for the large and rapidly growing collection of negatives and prints.

The system of cataloguing and preserving radiograph negatives, introduced several years ago, has proven to be thoroughly satisfactory, materially enhancing the value of our collection.

During 1899 there were made in this department 63 negatives of pathological conditions.

During the same period a total of 1,022 radiographic negatives were made, the total number of patients being 701, a marked increase both in number of patients, as well as in radiographs, over the preceding year.

A tabulated report of these cases is appended.

|               | Fractures. | Luxations. | Foreign Bodies. | Not Specified. | Total. |
|---------------|------------|------------|-----------------|----------------|--------|
| Head.....     | 1          |            | 3               | 5              | 9      |
| Neck .....    | 1          | 1          |                 | 3              | 5      |
| Body .....    | 3          | 1          | 10              | 16             | 30     |
| Shoulder..... | 27         | 9          |                 | 10             | 46     |
| Arm .....     | 20         |            |                 | 11             | 31     |
| Elbow.....    | 37         | 5          |                 | 21             | 63     |
| Wrist.....    | 94         | 4          | 3               | 63             | 164    |
| Hand.....     | 47         | 3          | 13              | 40             | 103    |
| Hip.....      | 5          | 1          | 1               | 10             | 17     |
| Thigh.....    | 7          |            | 1               | 10             | 18     |
| Knee.....     | 11         | 1          | 2               | 24             | 38     |
| Leg.....      | 22         |            | 1               | 9              | 32     |
| Ankle.....    | 49         | 4          | 2               | 16             | 71     |
| Foot.....     | 42         |            | 3               | 29             | 74     |
| Total .....   | 366        | 29         | 39              | 267            | 701    |

## THE DEPARTMENT FOR SCIENTIFIC HYDROTHERAPY.

A suite of several large rooms in the Hospital Laundry Building is fitted up with the most modern apparatus for the application of water in all its various forms for the treatment of a large and varied class of diseases. The number of cases treated is 199, and these patients received 1294 baths.

Hot-air baths are also given. Massage is practised in a large number of cases.

The results obtained have been very gratifying. Some cases which resisted all other treatment have been much improved, others cured. We may mention cases of inveterate syphilis, severe hysteria, chlorosis, and anæmia, rheumatism, with its numerous subdivisions and complications, neurasthenia, uric-acid diathesis, gout, and diabetes.

These baths are given to the patients of the Hospital, but also to patients who are sent there by their own physicians. If the beneficial effects of this mode of treatment were better known, the splendid provisions made by the Board of Trustees would benefit a much larger number of sufferers.

## THE MEDICAL LIBRARY.

The Library of the Hospital is more complete and useful than ever. During the last year, the many volumes that have been added to the

shelves have aided greatly in that scientific research for which the Hospital is becoming so justly famed. As the books are arranged according to subjects, and catalogued after the Boston Library plan, it is a simple matter to look up any work, either by the title of the volume, or by the name of the author.

The following are the additions that have been made to the Library during the year: Saunder's "Medical Hand-atlases," 5 vols.; Osler's "Practice of Medicine," new edition; Reider's "Urinary Sediments;" McFarland's "Text-book upon the Pathogenic Bacteria;" Deaver's "Surgical Anatomy," vol. i; Roberts' "Treatment of Fractures;" Bailey's "Accident and Injury;" Stengel's "Diseases of the Blood;" Hare's "Practical Diagnosis," and "Medical Complications and Sequelæ of Typhoid Fever" (presented by the author); Simon's "Clinical Diagnosis" *vs.* Jaksch's "Clinical Diagnosis;" Penzoldt and Stintzing's "Specielle Therapie," 6 vols.; and bound volumes of the following periodicals: Medical News, American Journal of the Medical Sciences, Notes on New Remedies, New York Medical Journal, Journal of the American Medical Association, Johns Hopkins' Bulletin, Philadelphia Medical Journal, Experimental Medicine, Archiv für Experimentelle Pathologie und Pharmakologie, Centralblatt für Bacteriologie, London Lancet, Archiv für Kinderheilkunde, and Druggist's Circular.

# In Memoriam.

## FREE BEDS FOUNDED:

1874. Two beds. By Isaiah V. Williamson.
1883. One bed. By John B. Stetson, to his wife, Harriet F. Stetson.
1884. One bed. By Joseph Kinike.
1886. One bed. By John F. Smith, to his wife Elizabeth Monroe Smith.
1889. Two beds. By the children of Henry and Sarah H. Tilge.
1889. One bed. By John F. Betz, to his wife, Sybilla C. Betz.
1890. One bed. By Louis Bergdoll.
1891. One bed. By Emanuel G. Reyenthaler, to his children, Edgar B. and Anna L.
1891. One bed. By Henry D. Justi.
1892. Five beds. By Mary C. Wallace, Margaret F. J. Wallace, Helen M. W. Henry, and Elizabeth E. Wallace: In memory of their Parents and Grandparents: Tobias Beehler, Catharine Beehler, his wife, and Susan Beehler, their daughter; Francis Barton Wallace and Margaret C. B. Wallace, wife of Francis Barton Wallace, and daughter of Tobias Beehler.
1895. One bed. By George Doll.
1895. One bed. To Anton Winters, by his executors, Adaline Winters and Louis L. Reinecke.
1895. Two beds. By Caroline M. Jeanes, in memory of her father, John Kohler, and her mother, Caroline Sulger Kohler.
1895. Two beds. By Eva Müller, to her husband, Franz Müller.
1895. One bed. By Franziska Tilge, to her husband, J. Henry Tilge.
1895. One bed. By Catherine Iüngerich Smith, to her mother, Christina Iüngerich.
1897. One bed. By Charles Santee in memory of his son, Joseph Hittel Santee.
1898. One bed. By Mrs. Peter Schemm in memory of her husband, Peter Schemm.
1899. One bed. By Chas. Smith in memory of his wife, Catherine Iüngerich Smith.

## DONATIONS IN 1899,

including Articles received on Donation Day, November 30, 1899.

---

MISS HAHN : bedding.

MR. GORTON : reading matter.

MRS. ALEXANDER VAN RENSSELAER : one box of roses.

ROBERT MORRIS SCHOOL : 9 dozen eggs, 4 glasses jelly, 2 bottles wine, 15 pkgs. groceries, 9 cans vegetables and fruits, 6 dozen oranges, lemons and apples.

MRS. OSCAR HENSCHER : reading matter.

JOHN BRAUN & SONS : repairing lawn mowers, \$12.57.

PHILIP F. KNOSS : 25 loaves of bread, 3 dozen rolls.

MRS. J. GILBERT : reading matter.

DR. NORRIS : a number of nice books.

KENSINGTON GUN CLUB : pigeons.

PRESBYTERIAN SUNDAY-SCHOOL, WOODBURY, N. J., Children's Day Service : box of flowers.

DONATION : \$5.

MR. JOHN F. SKELLY : \$10.

FRANK POEHNER : 110 loaves of bread, 210 rolls.

JOHN BRAUN & SONS : mower repaired.

JAMES MCFADEN : piece of muslin.

MRS. ESLER, Torresdale, Pa. : 3 baskets of grapes.

DR. J. B. DEAVER : 1 volume of Deaver's Anatomy.

MISS HELEN RIPPEY : cut flowers.

CARL EDELHEIM : flowers from funeral.

MRS. WAGNER : flowers from funeral.

ELIZABETH HENZEL, Lancaster, Pa. : 2 dozen sheets, 2 dozen pillow-cases, 3 dozen towels.

PROT. EPISCOPAL CHURCH OF THE REDEMPTION : vegetables and fruits, 8 pounds sugar, 6 pounds rice, 14 pounds oat meal, 2½ pounds biscuit, 2 pounds coffee, 1 pound tea, 3 pounds cornstarch, 3 cans tomatoes, 1 can peas, 6 glasses jelly, 4 pounds flaked rice, \$9 in cash.

MRS. MANZ : rubber plant and Norfolk pine.

J. O. TILO : 5 iron flower stands, 22 palms of different varieties.

PHILIP F. KNOSS : bread.

MRS. LEVINA NACE : German books.

UNKNOWN : old linen.

J. C. PARSONS : 2 copies of Diary of Jacob Hiltzheimer.

JOSEPH C. FERGUSON, JR. : 3 dozen pair smoked glasses.

THE NEEDLEWORK GUILD OF AMERICA: 10 pairs women's drawers, 10 pairs men's drawers, 8 women's undershirts, 6 men's undershirts, 2 men's woolen shirts, 6 undershirts, 1 wrapper, 2 pairs woolen shoes, 6 chemises, 1 towel, 2 pairs girls' stockings, 16 pairs men's stockings, 16 pairs women's stockings.

JAS. E. McCLEES: 1 picture.

JOHN D. LANKENAU: 2 pictures.

KATHERINE LACMANN: \$1.

MRS. REGENSPURGER: 25 pounds coffee.

CHAS. W. YOUNG & Co.: 1 box pearl borax, 1 box scouring soap.

ADAM SCHEIDT BREWING Co.: 6 cases of beer.

PHILIP ENGELKE: 100 bottles of red wine.

HALPEN, GREEN & Co.: 2 cases of tomatoes, 1 case of corn, 1 case of pears, 1 case of lima beans, 1 case of canned fruit.

NAME not given: 11 night shirts.

WM. SCHOELGENS: 1 case port and sherry wine.

LADIES' AID SOCIETY OF GERMAN EV. LUTH. ST. JOHANNIS CHURCH: 15 bed sheets, 32 pillow cases.

MRS. FELIX GEIGER: 50 yards of muslin.

CARL F. LAUBER & Co.: 2 cases of Burgundy.

MISS ELIZABETH M. HAHN: 1 table-cloth, 6 towels, 1 carpet, 4 pillow cases, reading matter.

MRS. JOHN BOWER: 3 pieces dress goods, 1 piece sheeting, 1 piece muslin.

MRS. C. SCHWARTZ: 1 piece of outing flannel.

MRS. HENRY BUEHL: 1 piece of outing flannel.

W. McKINLEY: 1 dozen tapioca, 1 dozen gelatine.

JACOB WEBER: 1 case of red wine.

MR. G. T. STEINBACK: 4 jardinieres.

MRS. P. J. DIEHL: 6 jardinieres.

BENJAMIN REIFF: 2 boxes California prunes, 2 cases tomatoes, 2 cases corn, 1 box peaches.

MRS. HELEN A. LIENHARDT: 1 barrel of flour.

BRADLEY'S GREAT WESTERN MEAT MARKET: 1 dozen smoked tongues.

FREDERICK KOCH: 2 turkeys.

OLIVER PARKER: 1 box Duryea's corn starch, 40 lbs.; 3 boxes laundry starch, 120 lbs., 1 box Dorn's blue, 3 dozen.

OSCAR MOEBIUS: 3 sides bacon, 3 hams, 3 beef tongues, 1 tub lard, and fine sausage.

J. S. PERRINE & SON: 5 gallons Palace rye whiskey.

MRS. CAROLINE MEYER: 4 pounds of noodles.

E. K. KANE SCHOOL: 1 basket apples and potatoes, 1 basket groceries.

MRS. F. R. EVANS: old linen.

GALLAGHER & BURTON: 1 case of whiskey.

HENRY SAUR: 1 dozen knives, 1 dozen pairs hæmostic forceps, 6 pairs of dissecting forceps.

SMITH, KLINE & FRENCH Co: 1 dozen Eskay's food.

FLEISCHMANN'S BAKERY: 175 loaves of bread.

H. EDWARD WENDEL : lot of metal, glass and hard rubber syringes.  
 SCHAEFER & KORADI : lot of books amounting to \$25.  
 MRS. MAISCH : 1 syringe.  
 JOHN MESSERSCHMIDT, JR. : 1 case zwieback.  
 STRAWBRIDGE & CLOTHIER : 5 pieces bandage muslin.  
 MRS. HEIN : 1 box cigars.  
 A. J. MEDLAR COMPANY : 1 barrel of soda biscuits.  
 FRED. M. HERRMANN : 1 case of whiskey.  
 MISS LYDIA WISCHAN : books.  
 JOHN M. KRAMER : 10 yards carpet.  
 MRS. STADELMEIER : 1 bottle of wine.  
 MRS. N. MEGONEGAL : 1 pair of crutches.  
 MRS. WALTZ : 1 chrysanthemum.  
 MISS EHRLICH : woolen goods amounting to \$10.  
 MISS HUGHES : 1 brush and brush stick.  
 MRS. GEASEL : flannel.  
 L. G. HAEUSERMANN : 15 pounds smoking tobacco.  
 MISS HANNAH SCHMIDT : 1 box of cake.  
 MRS. M. GATTER : dry goods.  
 PROSPECT BREWING Co. : 12 dozen malt extract, 12 dozen Münchener malt beer.  
 JOHN BOWER & CG. : 1 dozen boiled beef tongues.  
 EDW. C. ZWICKER : 25 pounds corned meat.  
 LOUIS HILLMANN : 100 bottles ginger ale.  
 JACOB FLECK : 8 dozen beer.  
 ROBERT MORRIS SCHOOL : 1 barrel apples, 1 barrel potatoes, 1 basket oranges  
 and lemons, 50 boxes vegetables, 20 pks. oat meal, 4 baskets pks. of differ-  
 ent groceries.  
 MRS. KOEHLER : 6 beef tongues.  
 CHARLES RUCKERT : 1 tub lard.  
 MRS. GUMERINGER : one 10-pound ham.  
 UNKNOWN : 1 can corn.  
 THUSNELDA E. THOLEY : 12 handkerchiefs, 2 pairs of socks.  
 CHARLES H. DUERR : 1 ham, 1 can of tomatoes, 1 can of corn, 1 can of peas.  
 LOUIS FUCHSLUGER : 1 dozen claret wine.  
 MRS. GREGOR : reading matter.  
 YOUNG, SMYTH, FIELD & Co. : 5 bed spreads.  
 PHILADELPHIA PICKLING Co : 1 keg of dill pickles, 1 keg mixed pickles.  
 CHARLES CONNERS : 100 cull oysters, 100 half shell oysters, 100 prime oysters.  
 MISS SCOTT : wheel chair.  
 THE PROSPECT BREWING Co. : 2 dozen malt beer.  
 ANDREW BLAIR & Co. : 1 dozen eye droppers.

## MONTHLY VISITING COMMITTEES FOR 1900.

---

### January.

E. G. Reyenthaler.  
Henry D. Justi.  
G. A. Schwarz.  
F. Wischan.

### July.

Wm. F. Dreer.  
Theo. Bremer.  
Hermann Hessenbruch.  
Horace E. Smith.

### February.

Hermann Hessenbruch.  
Herman Dercum.  
F. Wischan.  
E. G. Reyenthaler.

### August.

Chr. Gross.  
E. G. Reyenthaler.  
G. A. Schwarz.  
Horace E. Smith.

### March.

F. Wischan.  
E. G. Reyenthaler.  
Theo. Bremer.  
Herman Dercum.

### September.

Chr. Gross.  
G. A. Schwarz.  
Dr. Samuel Laird.  
Hermann Hessenbruch.

### April.

A. Hellwege.  
Theo. Bremer.  
Wm. F. Dreer.  
Herman Dercum.

### October.

G. A. Schwarz.  
Dr. Samuel Laird.  
Horace E. Smith.  
George W. Bremer.

### May.

A. Hellwege.  
Theo. Bremer.  
Wm. F. Dreer.  
Herman Dercum.

### November.

Henry D. Justi.  
Horace E. Smith.  
Hermann Hessenbruch.  
George W. Bremer.

### June.

E. G. Reyenthaler.  
Hermann Hessenbruch.  
A. Hellwege.  
Horace E. Smith.

### December.

Wm. F. Dreer.  
Horace E. Smith.  
Dr. Samuel Laird.  
George W. Bremer.

## BOARD OF TRUSTEES.

---

Elected at the meeting of the Corporation held January 8, 1900.

---

### For Eight Years:

Henry D. Justi,

Hermann Hessenbruch.

Continue in Office:

### For One Year:

G. A. Schwarz,

Wm. F. Dreer.

### For Two Years:

Herman Dercum,

Horace E. Smith.

### For Three Years:

Geo. W. Bremer,

E. G. Reyenthaler.

### For Four Years:

Christian Gross,

Theo. Bremer.

### For Five Years:

Chas. A. Woerwag,

F. Wischan.

### For Six Years:

M. Richards Mucklé,

A. Hellwege.

### For Seven Years:

John D. Lankenau,

Dr. S. Laird.

### Form of Bequest of Personal Estate.

I give and bequeath to the German Hospital of the City of Philadelphia, a corporation created in 1860, the sum of \_\_\_\_\_ to be added to its capital stock  
or,  
to be applied to the support of the same.

---

### Form of Bequest of Real Estate.

I give and devise to the German Hospital of the City of Philadelphia, a corporation created in the year 1860, all that, etc. (here describe the property).

---

### Form of Bequest for the Endowment of a Free Bed.

I give, devise and bequeath to the German Hospital of the City of Philadelphia the sum of five thousand dollars, \_\_\_\_\_ for the Endowment of a Free Bed.

---

### Form of Certificate to be given to the Donor of a Free Bed.

This is to certify that \_\_\_\_\_  
has paid into the Treasury of the German Hospital of the City of Philadelphia, five thousand dollars, to found the \_\_\_\_\_ free bed for \_\_\_\_\_ heirs and successors. The holder of this certificate is permanently entitled to have one patient kept there for gratuitous medical treatment, subject, however, to the Rules and Regulations which the Trustees of the said German Hospital may from time to time establish; it likewise empowers the holder to transfer the privilege on the books of the German Hospital, or by any other proper instrument of writing, to such persons as \_\_\_\_\_ may designate and appoint by \_\_\_\_\_ last will and testament.

In witness whereof the said German Hospital has hereunto caused the hands of its President, Secretary and Treasurer to be set and its corporate seal to be affixed the \_\_\_\_\_ day of \_\_\_\_\_ in the year of our Lord one thousand \_\_\_\_\_ hundred and \_\_\_\_\_

\_\_\_\_\_  
*Pres.*

\_\_\_\_\_  
*Sec.*

\_\_\_\_\_  
*Treas.*

## MEMBERSHIPS.

**I. Members of the Hospital Association.**—Persons desiring to become members of the Hospital Association must be proposed at a regular meeting of the Association or Board of Trustees, and by a majority of votes can be elected at this or any subsequent meeting.

The annual subscription is \$10.00. Male members who are of age and not in arrears with their dues have the right to vote.

**II. Life Membership.**—Persons who after their admission pay the sum of \$50.00 become life members, and have as such the same rights as contributing members. Their names shall remain continuously on the membership list.

**III. Societies** may become life members by paying the sum of \$100. These Societies have the privilege to be represented by their delegates, who in turn may have the right of one vote at the meetings of the Association.

### MEMBERS.

|   |     |
|---|-----|
| Life Members, . . . . .                 | 287 |
| Yearly Contributing Members, . . . . .  | 47  |
| Subscribers to the Sick Fund, . . . . . | 169 |
| Free Beds Founded, . . . . .            | 27  |

### ASSOCIATIONS.

German Society of Pennsylvania.

De Kalb Lodge, No. 174, I. O. O. F.

Hermann Lodge, No. 125, F. & A. M.

Cabinetmakers' Beneficial Society, No. 1.

Canstatter Volksfest-Verein.

Wm. Sellers & Co., Incorporated, 1600 Hamilton Street.

J. & P. Baltz Brewing Company.

Canstatter Ladies' Society.

John Braun & Sons.

### VISITING DAYS.

Sundays, from 2 to 3 P.M.

Tuesdays and Thursdays, from 3 to 4 P.M.

Private Patients may be visited every week-day from 10 A.M. to 7.30 P.M. and Sundays from 2 to 7.30 P.M.

THE BOARD OF TRUSTEES OF THE GERMAN HOSPITAL OF  
THE CITY OF PHILADELPHIA STRONGLY RECOM-  
MEND THE FOLLOWING ADVANTAGES  
OFFERED TO THE PUBLIC.

**Mill and Factory Owners, Lodges and Beneficial Associations** can secure a bed at the German Hospital for 365 days by paying \$200, and upon averaging the days may have several patients in the Hospital at the same time.

**Subscription Books** can be obtained by working people of both sexes up to the age of fifty, subject to the regulations of the Hospital, whereby, on paying an initiation fee of one dollar and monthly installments of fifty cents, each subscriber may be treated in case of sickness entirely free of further charge. Heads of families and owners of factories should particularly recommend to their servants and employees to avail themselves of this excellent facility.

---

**Spezielle Vorteile, welche dem Publikum im  
Deutschen Hospital geboten werden.**

**Fabrikbesitzer und große Unternehmer, sowie Logen und Vereine,** können unter Zahlung von 200 Dollars per Jahr das Recht erwerben, ein Bett für 365 Tage zu belegen, wobei es erlaubt ist, mehrere Betten auf einmal zu belegen, wenn nur die Durchschnittszahl 365 im Jahre nicht überschritten wird.

**Kranken-Abonnements.** Für die arbeitenden Klassen besteht die Wohlthat des Kranken-Abonnements, wodurch jeder Beteiligte nach Zahlung von einem Dollar Aufnahmegebühr und monatlicher Einzahlung von 50 Cents berechtigt ist, im Hospital behandelt zu werden, ohne andere Kosten irgend welcher Art. Personen beiderlei Geschlechts können aufgenommen werden bis zum 50. Lebensjahre, worüber die näheren Bedingungen in Hospital zu erfahren sind. Familienväter und Arbeitgeber sollten diese wohlthätige Einrichtung ihren Dienstboten und Arbeitern dringend empfehlen.
